General Descriptive Iris List

*"Labor with what zeal we will,
Something still remains undone;
Something uncompleted still
Waits the rising of the sun."*

—Longfellow.

Ever since I started my commercial garden I have looked forward to the time when I could publish *my own Descriptive Iris List*, and give my observations on the varieties as I know them in my garden. But O, what time and study it takes, and how frequently the activities of the garden force this Descriptive List to be one of the "uncompleted" tasks which "waits the rising of the sun." My secretary and I have taken numerous notes which we have never had time to fully transcribe, but some time when our rush is over (if such a time ever comes for the gardener) we will collect this data and compile a descriptive list of *Selected Irises*, but I do want to make it a "Bonnewitz" booklet, and not a collection of quotations from other lists. In the meantime I trust that the descriptions given here, together with those given in my European Iris Garden Price List, will meet the needs of my many friends who are asking for my descriptive list.

In the following descriptions the letter "S" refers to the STANDARDS, or upright petals of the bloom, and the letter "F" refers to the FALLS, or drooping petals.

To meet the needs of growers and retail customers who desire to purchase a quantity of one variety, I have quoted dozen rates on varieties I can supply in quantity. I will furnish one-half dozen at the dozen rate, and where a variety is listed at \$24.00 or more per dozen, I will furnish one-fourth dozen at the dozen rate. Naturally, the prices given in this list supersede all former prices.

I believe every root in my garden is true to name, but should any root which I send out, prove to be untrue, I will return the price paid me for it.

My terms are CASH WITH ORDER.

Irises will be sent by express and customers can pay transportation charges on arrival of shipment. When only a few Irises are ordered, purchasers may remit five (5c) cents extra for each root, and the Irises will be shipped by parcel post. If six or more roots are ordered shipped by parcel post, remit at the rate of thirty (30c) cents additional for each dozen roots.
